

## 4000 SERIES DOOR CLOSERS

*Door closers contribute to privacy, draught prevention and heat saving, but perhaps more importantly, they check the spread of fire and smoke - **their reliability is vital.***

*All of Jebron's door closers are designed with this in mind.*

*The multi-purpose 4000 series overhead door closer ranges are designed to overcome the conflict between essential self-closing fire doors and user convenience.*

*The 4000 series is available with either square or rounded slide-on covers.*

4870 series
