# SPECIAL PRODUCTS AVAILABLE FROM JEBRON

## Fire Fluid Door Closers

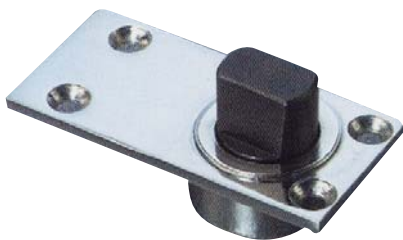

Door closers for high performance metal fire doors and timber doors in fire sensitive areas. Jebron FF (fire fluid) door closers use a special fire resistant hydraulic fluid which, unlike mineral oils or synthetic oils used in standard door closers, is not just less liable to flashing in fire situations, it actually has a dampening action on flames.

## Freeswinging Floor Pivots

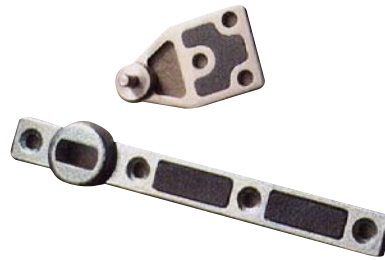

For use with standard Jebron floor spring straps and centres

- Maximum door weight 400kg
- Standard finish Plated Stain Stainless Steel
- Optional finishes Plated Polished Brass or Brushed Stainless

## Intumescent Packs

For extra reassurance of fire resistance, or in difficult application, intumescent filled brackets for overhead closers and accessories for floor springs are available

## 8000 Series Door Retainers

Designed to hold open fire doors fitted with a standard door closer when linked to a fire alarm system. Requires a standard power supply of 24 volts + 10%. Current 50mA. Meets the standards of [BS 55839](#) part 31988 and CE marked, tested and compliant with EN61000-3-2 and EN5008-1.

The range consists of:

- 8159/8259 flush wall mounted door retainers fixed into standard socket box available in Satin Chrome, Polished Chrome or Polished Brass.
- 8087 surface mounted door retainers with floor mounted option, available in White with Satin finish keep.
