

# 3 Valve Grade 1 Closer

Presenting the latest in innovative technology from Jackson, this Transom Closer is manufactured under strict ISO 9000 guidelines at our USA factory. This truly universal door closer is designed to give long lasting, maintenance free performance. One basic closer mechanism allows for single or double swing and is non-handed and suitable for both interior and exterior installation. It provides complete door control in a compact and concealed design, when other types of closers are not practical. This latest Jackson technology is available in 3 fixed spring powers, making this the ideal closer.
